

CONTEXT-RESPONSIVE IN-VEHICLE DISPLAY SYSTEM

ABSTRACT

5 A context-responsive display system for use in a
vehicle. The display system includes a dashboard display
positioned in front of a driver of the vehicle and adapted
to display graphic user interface elements in a
predetermined graphic composition providing information to
10 the driver regarding operation of devices in the vehicle.
The display system also includes a processor coupled to
receive signals from the devices in the vehicle and to
drive the display responsive thereto, and to alter the
graphic composition of the display responsive to a selected
15 input to the processor.
